International Isotopes Inc.

FOR IMMEDIATE RELEASE:
October 2, 2018

INTERNATIONAL ISOTOPES INC. IS AWARDED MULTIPLE NEW RADIOLOGICAL FIELD SERVICE CONTRACTS

New Contracts Totaling More Than $1.6 Million Dollars
Have Recently Been Awarded To The Company

Idaho Falls, ID. October 2, 2018 – International Isotopes Inc. (OTCQB: INIS) (the "Company") has announced it has recently been awarded more than a dozen contracts for various types of radiological field services involving sealed radioactive source recovery operations. The value of these contracts total more than $1.6 million dollars and most of this contract work is expected to be completed during the next six months. The contracts were awarded by the U.S. Department of Energy (DOE) and include both domestic and international locations. All the contracted work involves decommissioning various types radiation therapy and irradiation devices that are no longer in use. These new contracts will help the Company further build revenue within the radiological services segment; a segment that the Company previously reported to be up about 178% for the first six months of 2018, compared to the same period of 2017.

Steve T. Laflin, President and CEO of the Company, said, "The Company continues to build a reputation for safe, cost effective, and on-time performance of these types of services. I wish to express my appreciation to the many hard-working individuals within the Company whose expertise and professionalism are essential in obtaining these contracts and completing the work safely and efficiently in what are often less than ideal field conditions."

About International Isotopes Inc.
International Isotopes Inc. manufactures a full range of nuclear medicine calibration and reference standards and provides radiochemicals for clinical research and life sciences. The Company also produces bulk cobalt-60 and manufactures a variety of cobalt-60 products such as teletherapy sources, and provides a wide range of radiological field services on a contract basis to clients.
